

GENERAL TERMS AND CONDITIONS  
(Continued)

7. PROCEDURES FOR OBTAINING SERVICE (Continued)

7.4 Creditworthiness of Shipper or Persons Requesting Service:  
(Continued)

- (d) If Shipper is found to be non-creditworthy, Paiute will inform Shipper, in writing upon Shipper's request, of the reasons for the determination.
- (e) If Shipper is unable to demonstrate creditworthiness using any of the methods described above for a request for new service, Paiute may deny the Shipper's request.
- (f) If Shipper is unable to demonstrate creditworthiness and fails to provide adequate credit assurance using any of the methods described above for service under an existing Service Agreement, Paiute may, without waiving any rights or remedies it may have, suspend service upon twenty (20) days' written notice using the notice procedures described in Section 10.3 of the General Terms and Conditions.
- (g) Paiute may determine in its sole discretion that a Shipper that requests new service is not creditworthy to receive such service on the basis that Shipper has outstanding payments due on invoices rendered by Paiute on current or past Service Agreements and Shipper has defaulted on such payments per the terms of Section 10 of the General Terms and Conditions.
- (h) If a Shipper has multiple Service Agreements with Paiute and defaults on one Service Agreement, Paiute may deem a default by Shipper on that one Service Agreement as a loss of creditworthiness on any and all other Service Agreements that the Shipper has with Paiute.
- (i) The following procedures shall apply to the exchange of information between Paiute and Shipper when Paiute is evaluating Shipper's creditworthiness:
  - (1) If Paiute requests additional information to be used for credit evaluation after the initiation of service, Paiute, contemporaneous with the request, should provide its reason(s) for requesting the additional information to Shipper and designate to whom the response should be sent. Paiute and Shipper may mutually agree to waive the requirements of this subpart. [NAESB WGQ 0.3.3]
