

GENERAL TERMS AND CONDITIONS  
(Continued)

15. REVENUE CREDITING FOR CAPACITY RELEASES

15.1 Definitions:

The definitions in Section 14 of the General Terms and Conditions apply also to this Section 15.

15.2 Revenue Credits for Released Capacity - Eligibility:

Paiute shall provide revenue credits to any Shipper which temporarily releases (Releasing Shipper), under the capacity release provisions of this tariff, all or any portion of its capacity entitlement under a Service Agreement (released capacity) governed by the provisions of any Part 284 firm service rate schedule included in Paiute's tariff.

15.3 Monthly Crediting Procedures:

Revenue credits for temporarily released capacity shall be credited monthly, as an offset to, or a refund of, a Releasing Shipper's reservation charges otherwise payable to Paiute under the applicable rate schedule for the service that has been released, as provided by Section 15.4 below. The credits shall be based on the actual reservation charge revenue to be collected by Paiute from the Replacement Shipper or Prearranged Replacement Shipper during each calendar month applicable to capacity which the Releasing Shipper made available for release and which actually was released and resold to a Replacement Shipper or Prearranged Replacement Shipper. The revenue credits shall be credited directly only to the Releasing Shipper who releases the released capacity.
