

RATE SCHEDULE LGS-1
FIRM LIQUEFIED NATURAL GAS STORAGE SERVICE

1. AVAILABILITY

This rate schedule is available to any party (herein called "Shipper") for the liquefaction, storage and vaporization of natural gas by Transporter at Transporter's liquefied natural gas facility near Lovelock, Nevada (herein called "LNG Plant") for delivery to Transporter's pipeline system for transportation to Shipper's Delivery Point(s) on Transporter's system under the following conditions:

- 1.1 Shipper has made a valid request for firm liquefied natural gas storage service and has met the requirements set forth in Section 7 of the General Terms and Conditions of this tariff;
- 1.2 Transporter has determined that it has available capacity to render the requested service without construction of any additional facilities;
- 1.3 Shipper receives service on Transporter's system under a transportation rate schedule in this tariff; and
- 1.4 Shipper and Transporter have executed a Service Agreement in the form contained in this tariff for service under this rate schedule.

2. APPLICABILITY AND CHARACTER OF SERVICE

This rate schedule shall apply to the firm liquefied natural gas storage service rendered by Transporter to Shipper pursuant to the executed Service Agreement.

- 2.1 The basic service rendered under this rate schedule shall consist of the following, which shall be provided by Transporter on a firm basis:
 - (a) The receipt and liquefaction by Transporter of Shipper's natural gas nominated to the inlet of Transporter's LNG Plant, less Gas Used by Great Basin pursuant to Section 5 hereof;
 - (b) The receipt by Transporter of liquefied natural gas (herein called "LNG") for Shipper tendered to the LNG truck unloading facility at Transporter's LNG Plant;
 - (c) The storage of the LNG at Transporter's LNG Plant for Shipper in quantities not to exceed Shipper's applicable Storage Capacity under this rate schedule;
